abc123 His history seems to be good, but he was working as a lawyer for his entire life, he will smile to lawyers and turn his back to the others.

def456 He is past the 70 years of age, I'd argue that he could have enough of his mind left to be in such position

xyz789 This man won almost all of his defence cases in the court, would be the perfect one to solve our problems on an international scale.

ghi789 No wonder how rich this guy is, he must have got a lot of money from his shady clients
